

Measuring Charlie's Ladders

Cut out and order the length of the ladders from shortest to tallest.

Can you draw a ladder that is taller and a ladder that is shorter?

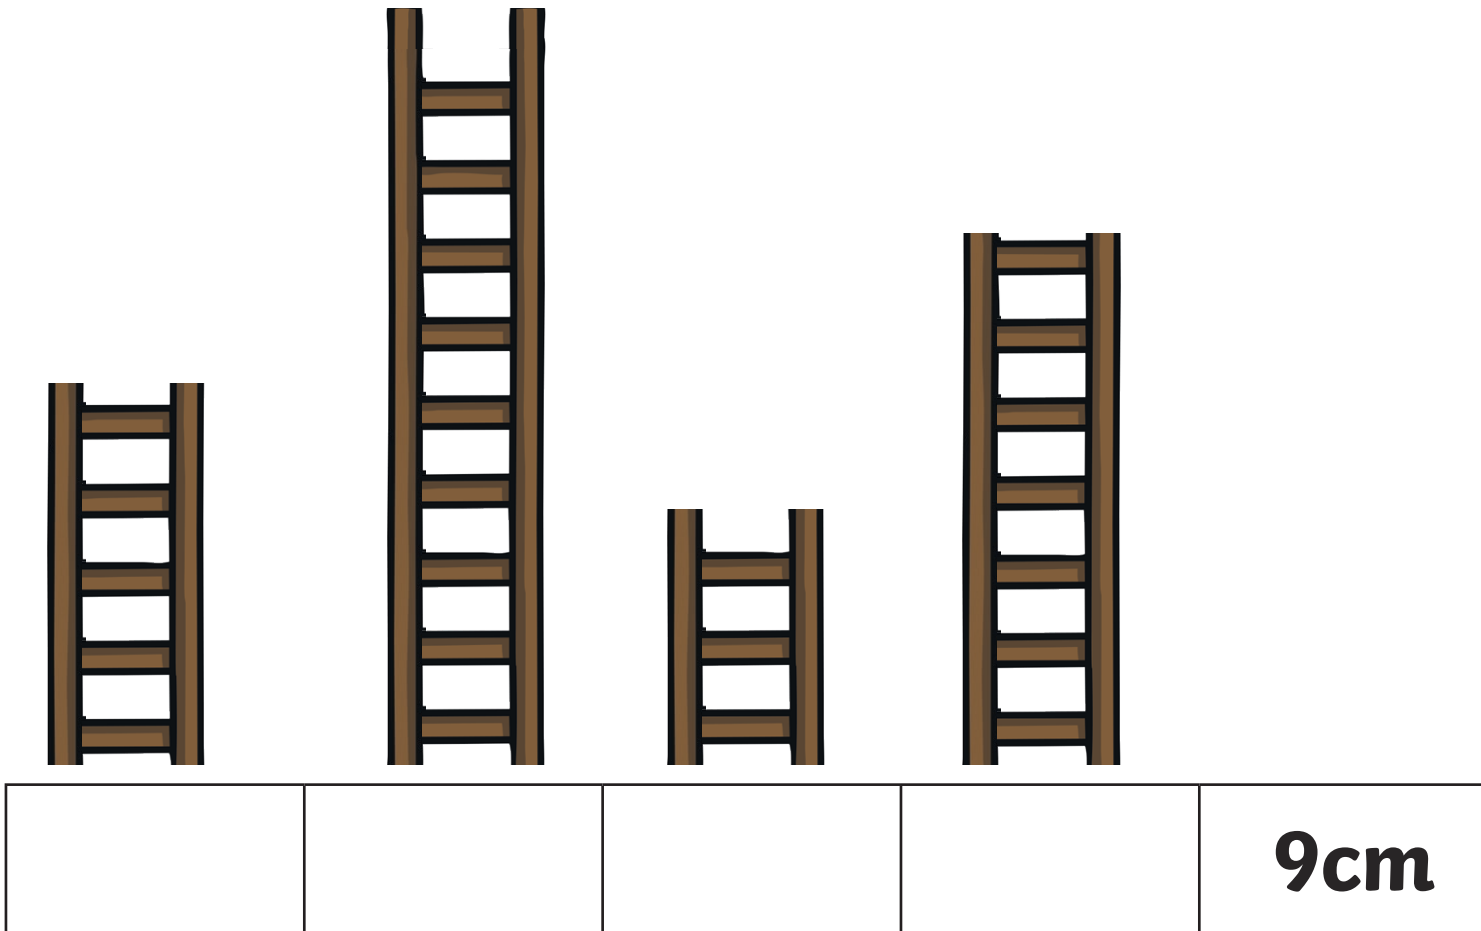

shortest

tallest

Measuring Charlie's Ladders

Measure the length of the ladders and label them with the correct measurements.

The image shows four ladders of different heights standing on a horizontal measurement line. From left to right, the ladders are: a short ladder (3 rungs), a tall ladder (7 rungs), a very short ladder (2 rungs), and a medium ladder (5 rungs). Below the ladders is a horizontal line divided into five equal-width rectangular boxes. The rightmost box contains the text "9cm".

10cm

3cm

7cm

5cm

Can you now draw a ladder that is 9cm tall?

Measuring Charlie's Ladders

Use a ruler to measure the length of the ladders and fill in the missing measurements.

The ladder is _____ long.

The ladder is _____ long.

The ladder is _____ long.

Now draw ladders that are...

6cm long

3cm long

12cm long
